SUMMAE EXPRESS IDEAS AND ASPIRATIONS

BARBARA JOAN KEITH

ANNE ELIZABETH OWENS

THERESE RAE SHMIDT

MARY ELIZABETH WALKER

BRUCE ROBERT ZUTTER

A concern for the individual and an interest in music were common characteristics among the five summa cum laude's of the Class of 1975.

When asked what she gained from Adams, Barbara Joan Keith replied simply, "twenty pounds".

High school has meant much more to Barb, though, than just a gain of weight. She has been involved in the Drama Club, where she is presently secretary, and has also played parts in *Finnian's Rainbow*, *Coffeehouse 74*, *Spoon River*, and *Fiddler on the Roof*. She was also in choir for four years.

Besides her interests in dramatics, Barb is very interested in journalism, which she plans to major in at Indiana University next year, and she also plans to participate in sports. In both, she has excelled to become editor-in-chief of the TOWER, copy editor for the ALBUM, and varsity volleyball player. Barb is a member of the Monogram Club and Quill & Scroll, an honorary society for high school journalists.

Her most exciting experiences include closing nights of plays and campaigning for Peter Nemeth. She has enjoyed classes with Mr. Schutze, Mr. Goodman, Ms. Cwidak, Ms. Maza, and Mr. Kline.

Through all of Barb's numerous involvement in activities during her years at Adams, she has gained an "involvement philosophy": "In high school, I feel that every person should get involved in as many things as possible. We should de-emphasize competitiveness and learn to enjoy our high school years. You have plenty of time to specialize and work your tail off

after college so experience as many different things as you can in high school".

Academics, dramatics, and art have been the main fields for the success of Anne Elizabeth Owens. "No matter what situation one may find himself in, there's something to be learned. If one views things openly and objectively, one can make anything into a learning experience. Whether it be meeting and getting along with different people or learning how to conjugate French verbs, the process of furthering one's education continues . . .", is Anne's philosophy.

She has made all other activities into learning experiences, including being President of the Drama Club during her senior year, feature editor for the TOWER during senior year, a four year member of the choir, member of the Mayor's Advisory Board on Education, and treasurer of the Drama Club during her junior year, and playing parts in numerous plays, and possibly her job at Inwoods.

Though, her experience at Adams has prompted ideas of change for the school. Like Barb Keith, Anne feels that non-athletic extra-curricular activities should be given the equal support from the student body and staff.

She has felt that her ideas would not be ignored by the administration: "when I had a problem or criticism of the way something was being done, I could go to the teacher, principal, or counselor, and always be reassured of the fact that my criticism would be heard

and that something would be done about it."

Since her sophomore year, Anne has played major roles in many plays, both at Adams and at the Firehouse Theatre. Her interests in drama, though, does not exceed that in medicine, which she plans to major in at the University of Chicago.

Therese Rae Schmidt plans to capitalize on pharmacy which she will major in at Butler University.

Therese liked Mr. Aronsen's math class and Mr. Goodman's chemistry class in particular, and would like to see more recognition given to non-athletic extra-curricular activities rather than sports. She also felt that a National Honors Society should be started at Adams.

Her most exciting experiences were being officers, a secretary during her junior year, and vice-president for the senior class, of which she had been particularly eager to work on the magazine sale, pizza sale, and senior prom.

Her extra-curricular activities include, playing the piano, and looking forward to being a water safety instructor this summer at Camp Singing Hills, a Girl Scout camp in Elkhart.

Adams has taught her, "the importance of being true to yourself and following your own conscience when you're confronted with a problem or decision to make . . . There are so many followers today that people are swept up and should make their own decisions."

Life at Adams was experiencing, "a wide range of people; a cross section of America" for Mary Elizabeth ("Beth") Walker. Beth's main interest is generally people, about which she comments, "I like to be around people, they're interesting and I understand them." She plans to major either in Pre-Med. or in Psychology at Indiana University.

But besides her interest in people, she has been involved in such activities as the Biology Club, for which she was treasurer during her junior year, the Drama Club, which she played in *Fiddler on the Roof*, and *Music Man*, and plays at IUSB. She was also in the choir and in other activities such as candy-stripper at St. Joseph Hospital for two years.

Playing "Chava" in *Fiddler* was her most exciting experience at Adams. Beth would like to see an improvement in the Drama Department and in the Adams' Music Department with new facilities and a new director.

"The understanding of oneself and other people", is most important to Beth who feels that, "to be any kind of person, you must have a good understanding of yourself so that you can become a mature person and realize fully your capabilities and opportunities. Only with a full understanding of yourself and life can you see evil and the best ways to alleviate it."

Bruce Robert Zutter found interest in the sciences and photography at Adams. Being particularly interested in biology, conservation and extending fields, he is as of yet undecided as to what

he will be majoring in at Purdue.

"Some people are blessed with certain things that others don't have; these people have to work all the harder. Through hard work you can reach whatever goals you can set" is Bruce's philosophy, which he has followed through four years at Adams.

In all his activities as baseball manager during his sophomore and junior years, football manager during his sophomore through senior years, and ALBUM photographer, he has enjoyed most being sports editor for the ALBUM this year because his work was tangible. Outside of school he states that he hasn't been involved in anything but playing basketball for a Y-team.

The Science Department was the thing that Bruce liked most about Adams because it was "pretty much up-to-date and well taught" and overall the teachers of science, as well as other courses are "above average".

Over all, the summa cum laude's are individuals, different in not only their rank in class and grade point average, but in virtues that perhaps helped them more than the copious hours of study. Barb Keith's "involvement", Anne Owens, "learning experiences", Therese Schmidt's "power of the individual", Beth Walker's "interest in people", and Bruce Zutter's "will to achieve" have set them apart, not as being different, but what the standard should be. For them and for all who have tried to be superior academically, etc. is the reward of individual accomplishment.

FROM THE EDITORS

John Adams has been a tremendous experience for the three senior Tower editors, but there are many aspects and situations in the school which could be bettered through the cooperation of students, teachers, and administrators.

A major complaint of many students is that the school offers nothing interesting to them; classes are boring and irrelevant. But high school experience is not entirely in the classroom. We would have found Adams unbearable if all we ever did was go to class. Involvement is the key to happiness at John Adams.

This school offers a tremendous variety of extra-curricular activities that any interested and resourceful student can become involved in. Indifference to these clubs and activities is the greatest problem we face at Adams. Everyone must realize that you can only get something out of high school if you put some effort in. Student apathy is a subject that's been hashed and re-hashed; but it is the root of student discontent and administrative frustration.

But students aren't entirely at fault for apathy. Some effort must also be made by the teachers to battle boredom and discontent. It's awfully hard for a student to do good work for a teacher who doesn't care about him or his ideas. It's true that some teachers have 130 students a day, but if a teacher can't even remember a student's name, what incentive does the student have to work for him? Some teachers put out tremendous effort to know their students and respect their opinions; more teachers should try it.

Another problem that has haunted Adams in past years is the over-emphasis on athletics and complete overshadowing of academics. In a supposedly academic atmosphere, we seem to have mixed our priorities. The only recognition scholars receive all year is at the Senior Honors Assembly. Underclassmen are never recognized, except for a rather insignificant honor roll. It's a wonder that any students work hard at their studies. There is certainly very little incentive for doing so, except the interest of teachers and parents.

We are not saying that athletes should not be recognized. But outstanding students should be honored even more. The purpose of this school is education, yet we are rarely rewarded for achievements in this field. The athlete's professional life is very short, if it comes at all; but a good education can sustain you for your whole life.

We have found this administration very open to student questions. Mr. Przybysz, Mr. David and Mr. Bibbs are almost always available to anyone who wants to speak to them. The lines of communication are there, but students must learn to use them. Don't be afraid to speak out to your administration. Although we sometimes ran into administrative double-talk on touchy subjects, for the most part they were very helpful.

All in all, our stay at Adams has been a great experience and a good foundation for our futures. How could we help but have a great time with teachers like Mr. Schutz, Ms. Maza, Mr. Allen, crazy Ms. Cwidak, and Mr. Goodman [go Reds!]. Adams is a good school, but it will be great if everyone, students, teachers and administrators, work together to keep Adams No. 1!

Comments from Przybysz

As the 1974-75 school year draws to a close, the Class of '75 will soon begin seeking their fortunes. No longer will all of you be getting yourselves prepared to return to 808 South Twyckenham this September, but will be traveling to the far corners of this country. Some in school, some in jobs, some in the service, and some will simply travel. To all of you, I wish the very best of luck. I sincerely hope that your experiences at John Adams, over these past four years, will enhance your chances of success. We too, have strived to prepare all of you for whatever walk of life you

will seek. In most instances, we feel we have succeeded. Unfortunately, there were those instances when we fell short. It is my profound desire that in these instances we have all learned, and will be better prepared to meet the challenges that are surely ahead of all of us; administrators, teachers, and you the Class of 1975.

You were a joy to work with. You renewed my faith in young people, having had the distinct pleasure of being a part of your high school days. Your class has excelled in academics, athletics, music, and again you did it "First Class".

Once again the very best to all of you.

Can you be sure it fits if you don't try it on?

You'd rarely buy a pair of shoes without trying them on and if you're considering a new car, you test drive it first. So why not do the same with college? It's a much more significant investment than shoes or cars, yet too often today a college is "bought" before it's tried on.

We'd like to help you make your college choice a wise one - so we've opened our doors to you and other prospective students. Whether you have an hour or an entire weekend, you're welcome to visit Bethel. Try on classes, live in the dorm, get to know our students and faculty. The accommodations are on us. Just let us know when you'd like to visit, and we'll make the arrangements. Write or send in the coupon below today. It will mean a better fit... and we'll both be happier with that.

NETTERS TAKE STATE CHAMPIONSHIP

What is it that makes up a state championship tennis team? It takes seven individuals dedicated to a common goal; number one in the state. Back in August, while the majority of the students were still at the lake, the Adams tennis team had already started practice. With the core of Chris Fallon and Jeff True, both highly acclaimed players, Coach McNarney formed a first-class team with Ed Featherstone, Bill Marentette, Chuck Csiszar, Kevin Crowe, and John Boyle to give depth to the two superstars. For the first time, the state tournament was run on a team basis and it was Adams team that stole the show.

So impressive was the Adams team that several tournaments are slated for next year as well as a match at Valparaiso, still stinging from a regional defeat. Looking forward to next year, the student body can once again expect the Eagles to dominate the courts, and keep their undefeated record of 23-0 intact.

Seniors Bill Marantette and Chris Fallon led the Eagle tennis team to a state championship title.

Girls' Tennis 14-0 In First Season

The girls' tennis team ended their first season with a fantastic 14-0 record. Coach Callum's girls won their final match by defeating Penn, 7-0. Karen Green and Julie Mathews were both undefeated during the entire season. The girls show great potential for winning the sectionals, May 19-25.

The entries for the sectionals consist of two singles and two doubles teams. The singles players are Karen Green and Judy Peltz with alternates Debbie Jones and Moira Dingley. The doubles teams

consist of Laua Heise and Nancy Gyorgi, and Beth Ganser and Julie Mathews. The alternates for doubles are Hildy Kingma and Sally Walshe. The team's captain and co-captain this year are Beth Ganser and Julie Mathews.

The outlook for the girls is very promising. They are all your strong players, and have an excellent chance at the state trophy. Whatever the outcome, the girls' tennis team has been a success and has only just begun!

Seagles 3rd In State

The 74-75 John Adams Seagles, minus All-Americans Dan Harrigan, John Feferman, and Jim Severyn finished the season with a respectable 14-3 record; and led by juniors Phil Thornberg and Mike Slowey took third place in the I.H.S.A.A. Swimming and Diving Championships. Thornberg came from behind to win the 500 freestyle in the most exciting race of the day. Moments later, Mike Slowey won the 100 breaststroke, setting a new state record and earning national recognition. The medley relay (Komora, Slowey, Patterson, Tweedell) placed 7th, the freestyle relay (Tweedell, Deren, Patterson, Thornberg) placed 5th, while sophomore John Komora placed in two individual events.

The season was that of illness and injury. Among the victims were Toby Wehrhan, Phil

Thornberg, John Komora, and John Hedge. Ninety per cent of these problems came in the month of January and can take credit for the loss to Bishop Noll, not to mention several other bad showings. Despite this problem the Seagles swam well in their championship season, including their 12th straight N.I.C. championship.

The loss of seniors Steve Patterson, Mark Weger, Eric Tweedell, and Captain Jeff Deren, plus the loss of junior Gordon Slutsky will again make Mr. Smith's job a challenge. Nevertheless, the vast improvements of Toby Wehrhan, Dave Rubin, Don Strong, Gary McCracken, Dave Mennucci, Jay Sunderlin, Doug Knapp, Rian Myers, and Diver John Hedge this year, will give "Coach of the Year" Smith a good base to work from next fall.

Linkers Still Putting

The John Adams Golf Team consisting of Tom Stevens, Mark Risinger, Dave Schultz, Mike Walker, Lynn Tyler, Bill Steinmetz, and David Weisman, has a 10-8 record so far this year and is 6-6 in the conference.

In their opener, Adams lost to St. Joe, mainly because of the temporary loss of first man Tom Stevens. They dropped 17 strokes off their original total and beat Washington, but still lost to Jackson. The next week the team won both their matches over Clay-Washington, respectively.

In the first conference match, at Long Beach in Michigan City, the team suffered two losses to Elston and Central. The following held four consecutive matches in store for the team including the LaPorte Invitational. Adams beat Marian in a non-conference meet and Penn, Washington, LaSalle, and Mishawaka all in conference matches.

Since then it has been downhill for the team with a poor showing at LaPorte and losses to Riley, Memorial Cental and Elston.

Remaining matches include Penn and Washington, Mishawaka-LaSalle, Riley-Memorial, LaPorte and the Kaeppler City Tourney. The Sectional is June 3, the Regional June 10 and the State is on June 16.

Grapplers Take Sectional

The 1974-75 John Adams wrestling team once again proved to have the best fighting spirit in town. Coach Aronson, with help from Mr. Connelly, led the team to 9 big victories, and tasted defeat only twice. And for the second year in a row, captured the NIC and Sectional Championships. Seven Eagles advanced to the regionals. The biggest victory of the year was over Mishawaka. Adams won the first 5 matches in a row, and the Cavemen never got out of their slump.

This year's graduating seniors are: Doug Wade, 3rd in sectional; Mike Kendall, 2nd in Regional; Captain Tim Mahler, 2nd in sectional; Steve Brownell, 3rd Sectional; Kevin Peters, 2nd in sectional; Leo Couch, 4th regional; Randy Kline, Mark Lootens, Mike Mennucci.

Seagals 1st in Regional

Coach Shirley Callems John Adams Seagals captured the sectional meet and placed a respectable fifth in the State final meet.

Led by co-captains Laura Anderson and Ann Oren, the Seagals battled back to finish strong after losing their first meet after sixty-eight consecutive wins.

For seniors Laura Anderson, Beth Barrell, Sue Balthazar, Debbie Brennan, Ann Oren, Linday Pausek, and MVP Karen Tweedell, the past four years have been that of great praise and pride.

Underclass performers included: Moira Dingley, Paula Hendriks, Judy Peltz, Beth Jaicomo, Nancy and Sue Schmidt, Lisa Protzman, Sue Sheu, and Mary Golba.

The prospective freshmen were Anne Slowey, Cindy Patterson, Meg Fahey, Pam Zigler, Jackie Knapp, Debbie Wright, Pam Rhode, Terry Gault, and Sue Polomsky.

Even though their fourth attempt at a state title failed, this year's team should be congratulated for an excellent effort.

Track Team Surprises Foes

At the start of the year, the members of the track team were looking forward to having a super season. Due to some key people being injured, the season wasn't quite so fantastic. An 8-3 dual meet record is one of the best at Adams in a long time. The Eagles did well in most of the big meets but it was felt that they could have placed higher with a healthy squad.

The two captains, Terry Wardlow and Tom Wiltrout, led the team in scoring points due to their constant efforts. Mark Hardy had a good year in the sprints, in which he was rarely beaten. In the halfmile, Bill Marentette, looked very strong early in the season but was plagued with injuries. Mark DeLieger switched off between the one and two mile, doing a very commendable job in both. The field events were the place where the Eagles showed the biggest improvement. Tim McClure concentrated on the pole vault and got

more points than expected. Bruce Spann, overshadowed most of the year, came through in the stretch. In weight events, Kevin Peters and Mark Lootens were almost always sure points.

Next year the team will be led by co-captains William Sanders and Paul Daniels. Junior William Sanders had an outstanding year, winning the conference and sectional titles. Cochise should be this area's top performer next year. Paul Daniels should lead the distance crew next year. Bruce Woodford will lead the weight man and already has school records in the discus. Ken Chambliss looks like the top sprinter for the following year and Chris Walter came on strong.

Other good prospects are: Tim Deneen, Mike Forrest, Darrell Murray, Ron Newhouse, Leon Stein, and Jim Freel. These young men plus some promising incoming freshmen should lead Adams to a good season next year.

Male Gymnasts Face Tough Competition

The John Adams gymnastics team finished with a disappointing 1-8 win-loss record. The team faced tough competition the entire season. The season opened with a win over Northwood but was followed by losses to strong opponents. Among these were meets with Angola, Concord and Jimtown. Many of these meets were decided by less than five points.

Lettering this year was Captain Chris Dieringer, Tim McClure, and next years' captain Tim Oletti. Also lettering were MVP Marco Driver, Greg Fulce and John Green.

With the continued support of the student body, the gymnastics team can look forward to next year and a winning season in this very exciting and unique sport.

Diamonders Finish 8-8 In NIC

Coach Len Buczkowski's baseball squad has compiled an 10-13 overall record, as of May 21. The diamonders have played against many tough teams and they have responded well in certain situations.

Led by senior co-captains Jim Szabo and Barry Coker, the team executed good pitching, steady defense and a well-balanced offense.

Compiling a good 8-8 NIC record, the club has shown the caliber of a good baseball team. Other senior members include Bill Madison, John Dragovich, Scott Nowicki, Jeff Hull, Dave Eades and Kirk Forster.

Tom Wiltrout leaves the opposition behind as he clears the hurdle.

Hardy Tops In Basketball

NIC Shares NIC Title

Coach Tom Connelly's football team ended their season with a respectable 4-6 record. Marred by bad breaks and hard luck, the team showed the hustle and pride that is evident in the Adams' sports program.

Senior running back Mark Hardy scored nine TD's in leading the conference in scoring. Teammate Tom Wiltrout finished seventh in the NIC in scoring. The Eagles, playing in one of the toughest conferences in the state, compiled a 2-4 NIC record.

Female Gymnasts Finish 7-3

Again this year, the gymnastics team will lose very little of their team to graduation. Only two seniors, Buffy Janus and Lynne Jaicomo, were on the team this year. As captain, Buffy Janus led the team to a 7-3 record. The team scored victories over many of the best teams in the state, with outstanding performances on the balance beam, parallel bars, and floor exercise.

Compiling an excellent 21-3 record, the John Adams basketball team proved to be one of the best powerhouses in the state.

Under the able leadership of Dave Hadaway, the tall Eagles jumped to the top of the statewide polls two different times throughout the year.

Led by all-stars Glen Sudhop and Val Martin, Adams captured the annual holiday tourney and finished as tri-champions of the NIC Conference.

The basketball team proved to acquire more national attention than ever before. This will be very beneficial for the youngsters who plan to play for Adams in the future.

Volleyball Squad Spikes Opponents

The girls' volleyball team ended the season with a 7-5 record. Under Coach Sue Ganser, the team made it to the semifinals of the sectional at Mishawaka High School, where they were defeated by defending state champ Marian.

Led by senior co-captains Debbie Leeds and Barb Keith, the team consisted of several seniors, including Mary Keith Hively, Val Golden and Kathy Kujawski.
