## The Boyfriend: Another success for the Drama Club

The John Adams production of Sandy Wilson's **The Boyfriend** was a tremendous success. This musical comedy, under the direction of Mrs. Marilyn Goerner and Mr. Michael G. Allen took place on May 6, 7, and 8.

The story focused on an unhappy English boy and girl who fall in love in an attempt to rebel against the upper class social system. Jennifer Frieden (Polly) and John Manier (Tony) portrayed these characters excellently.

The plot is enhanced by four prissy girls who always managed to say and do everything in unison. One girl in particular, Maisie, played by Lisa Macri did a tremendous job. Have you ever met a girl who leads on the guys on her reason being "Safety In Numbers" and who always seems "tickled to death." If so, you know what type of girl Maisie

was. She was hilarious. Her boyfriend, Pat Hughes, did just as well.

Other things that contribute to the humor of the musical was a swimming scene where everyone shuffles around flailing their arms, an old man who wanders on and off the beach observing the "scenery" with his nagging wife following shortly behind, and a French maid played by Susan Zimmerman.

I must not forget to mention Lisa Lamen whose beautiful voice added to the enjoyment of the audience.

The costuming was excellent. Although the chorus faded out at times and the orchestra was lacking at times, the production on the whole was a success and I would like to congratulate all of the cast members on a job well done.

## History winners roll in with honors

by Jennifer Kingma

On April 24th Adams students Greg Werge and Kerry Kinney entered the Local History Day Contest. Entrants were to submit a project on the theme, Trade and Industry in History. Both students won on the local level and will be submitting their projects on the state level in Bloomington on May 15. Greg's essay deals with Henry Ford and mass production and Kerry's about the Avanti Motor Company was accompanied by a model of an Avanti. Good Luck to both of you on Saturday.

in South Bend. Kerry's project Mr. Pryzbysz and Mr. Humnicky, along with winners Kerry was accompanied by a model of Kinney and Greg Werge.

### Astronomers see skies in New scope

The Astronomy Club has become the beneficiary of a graduate student at I.U.S.B. Mr. Rick Brown, studying business and administration and himself an amateur astronomer, graciously donated to the club a telescope in his possession.

The club's new tool is really composed of two separate 4 1/2 inch refractors; also on the body is a smaller 3 inch refractor, enabling two observers to use the scope at once. Included with the telescope is a motor-clock drive to compensate for the Earth's motion as time

Mr. Brown's only stipulation on giving the club the telescope was that "it was used." And it will definitely be put to good use as the club continues to strengthen its observational technique.

## School Blacklist Announced

by Christina Bird

Effects of the vacillating economy have finally struck public education. In an attempt to reduce both the school corporation's budget and the "excess" staff members, the SBCSC board has announced its final layoffs. Pink slips have been sent.

To do my bit to curb the rumors rampantly running through the corridors of our beloved Adams, I spoke to Mr. Pryzbysz about the mechanics of staff reduction. Adams will be losing eight faculty members from five departments: Mrs. Acker, co-ordinator of the Distributive Education program, who will be replaced by a teacher with more seniority; Mr. Szucs, Mr. Humnicky, and Mr. Otolsky from the Social Studies department; one of our librarians, Mrs. Huang; Mrs. Sorberg, from the Business department; and Mr. Farrell and Mr. Thomas of the permanent substitute teachers.

The selection of teachers to be laid off was determined by SBCSC procedure. First, tentative class schedules were sent to students to approximate the number of teachers needed. Then based on seniority--time spent with the Corporation although not necessarily at the same school-teachers were removed from departments in which statistics indicated they were no longer needed. In this fine cut, which took place several weeks ago, teachers were called "unassigned."

The unassigned teachers' seniority was then compared with the seniority of teachers still secure in their positions, and the teachers with the highest seniority in a particular area of certification were kept. For instance, if a teacher at Adams had five years of seniority, less than the other members of his

department, he would be unassigned. If then, however, a teacher at Washington in the same department, had less than five years, he would be replaced by the former Adams teacher.

The final group of teachers, then, is the group that was actually laid off. Some of them have been given permanent sub status - Mr. Szucs and Mr. Humnicky at Adams - some will be rehired in the fall due to retirement, resignations, and other changes in staff; some will appeal the decisions to the School Board, but the first spending cuts, to quote the song, "are the deepest."

# k slips

by Alan Engel

This letter is written to voice my concern in regard to the recent school corporation layoffs. In order to fully comprehend this letter, the procedures used to lay off the 187 teachers must be understood (see page 1). Teachers who were unfortunate enough not to have their names removed from "the list" were given pink slips two weeks ago. No black teachers, however,

were pink slipped. Why? The

corporation, with the consent, not

the blessing, but the consent of

the National Education Association (NEA) is implementing a policy of affirmative action. Mr. Stephen Neal, director of the NEA, explains, "In the bargaining for the new teacher contract a couple of years ago we wanted cuts to be made on a seniority basis. The school corporation wanted the affirmative action. We only agreed to the affirmative action on a "hold harmless clause." This means that if the SBCSC is sued for reverse discrimination the NEA would be held harmless." Neal also commented that he would be shocked if there were no reverse discrimination suits. Dr. James Scamman, superintendent of the SBCSC,, defends the affirmative action clause. "We have a 25% black student population and only 14% of the teachers are black. We are trying to reduce this proportion of black students to black teachers." The Justice Department has made no stipulation in regard to affirmative action, so the legality of the issue is at question. When asked how a suit against the corporation could end, Dr. Scamman replied, 'There have been four recent court cases on this very subject. The four cities are much bigger than South Bend, though. They're Boston, New Orleans, Detroit, and a city in California. In Boston, the judge held up the decision of the school corporation stating that they were making progress to reverse past discrimination." Mr. Neal, however, adds, "The courts have come down on both sides of the issue. For every case that the courts agree with a certain school corporation there's a case where the courts force the corporation to reverse their policy." In other words, black teachers or teachers who have been in the corporation for ten to fifteen years and are certified to teach in two subject areas are almost guaranteed of a job next year, regardless of past performances. Since many teachers have been evaluated in the last few years, and no teachers, to my knowledge, were removed from their position then yes, the words regardless of past performance do belong here (they do belong here). If they had been evaluation, they would not be teaching today.

This writer must question the evaluation process. I feel that all the teachers should have been evaluated. The teachers with the lowest scores on their evaluations should have received pink slips.

Mr. Neal argues, "An evaluation of this type, of each teacher, is impossible. We would have fifty different principals evaluating fifty different ways. And then we would run into personality conflicts. Thus, the only logical way to determine which teachers to remove is by seniority.' Although Mr. Neal's seniority plan is logical and inexpensive, I still must disagree. High school students of the SBCSC should be involved in the evaluation process. We are of an age and at a level in our development at which we could rationally evaluate a teacher the year after we were in his or her class. Graduating seniors could be interviewed in August before the beginning of the next school year. In addition to the principal, other teachers in the same department could evaluate their colleagues. Thus, evaluation scores would be obtained from three independent sources, instead of one (the principal).

Student viewpoint

One more issue still troubles this writer. This issue pertains to the huge number of teachers who were laid off for the 1982-83 school year. 187 teachers received pink slips. Dr. Scamman explains, "At first we calculated that we'd need to cut 230 teachers to balance the budget. But then we made cuts in guidance, nursing services, library services, human resources, and bilingual education. We then only needed to cut 187 teachers." Mr. Neal responds, "I thought that the school corporation could only justify laying off 108 teachers. This was the figure authorized by the school board." The reason for this significant difference between the number of teachers laid off and the number authorized to be laid off by the school board is unknown to this writer. This significant difference is 79 teachers. Not only teachers,

### The Medicine Shoppes

1309 Mish. Ave.

people, actual people. And not only these 187 will be hurt, their spouses and children will suffer also. Mr. Neal feels that he knows why these 79 teachers were laid off. "It's a personal vendetta by Dr. Scamman against South Bend teachers for not opening contract talks," said Neal. "Next year the classes will have too many students in them and the corporation will have to rehire some teachers." Upon hearing Mr. Neal's latter comment, this writer became assured that almost everything would work out satisfactorily. "But the unemployment compensation which the school corporation must pay this summer to these teachers who will be rehired this fall will again increase the debt. So they'll be right back where they started again," added Neal.

Right back where we started again. With several excellent teachers being laid off, several incompetent teachers almost guaranteed positions next year, and a confused and frustrated public, can this school corporation function PROPERLY next year? Although we are losing several fine teachers, with our present administration, I have no doubt but that Adams will retain its exceptional reputation as a top-notch school both academically and athletically. The rest of the school corporation, can it function properly next year? All we can do is hope.

## Ram Neta

by Derek Lannuier

This week, a TOWER feature editor on special assignment interviews an avid Rolling Stones fan. After two years of "loyal" dedication to the TOWER,

## i Junta!

by Betsy Killeen

Many students at John Adams do not take four years of a language. Consequently, the fourth and even the third year classes are a little smaller, allowing for special activities. So, aside from everyday language education, the top three Spanish classes (one fourth year class and two third year classes) have done some new but enlightening activities.

In the fourth year Spanish class, Mr. Howard Uhrig, head of Audio-Visual and Library Services for the school corporation, demonstrated the techniques used in filmstrip making. Filmstrip making? Yes. As summer begins to loom on the horizon, many students must write term papers, complete projects, and even give oral presentations. As one student put it, "A filmstrip would make a project more fun to do and more interesting to see.'

The third year Spanish class had a party and invited the fourth year Spanish class. The party, which was hosted at junior Mary Macri's house, was based on a Spanish cafe. Many tables with red checkered cloths were set up. Moreover, the students played Spanish music and ate many dishes of the European nation, Besides the usual tacos (which are actually not Spanish), the students enjoyed eating gazpacho (cold tomato or potato soup), paella (a seafood dish), and guacamole dip (for tortilla chips). To prepare for the party, the Macris even shopped at a Mexican grocery on the west side of town. The party was an excellent way to learn about

Spanish culture. Mrs. Butterworth, one of the two Spanish teachers at Adams, and several students are already making exciting plans for next year. They are forming a Spanish Club. The club will meet during the activity periods. It will provide experiences in Spanish and Hispanic culture which cannot take place in the everyday routine of the classroom. All interested students are welcome.

opinion writer Ram Neta has decided to move to Washington, D.C. In a candid interview with the prolific Neta, the TOWER uncovers the opinions behind its opinion writer.

Q: What do you think of the new TOWER staff?

A: I'm unwilling to believe that a 90% female staff could ever do a competent job.

Q: What do you think about drugs?

A: Whatever turns you on.

Q: What do you think of teenage pregnancy? A: I don't plan on it.

Q: What constitutes a "cool" personality?

A: Honesty, manners, openness, lack of inhibition, interest in others, broad knowledge and

Greenland, tickets to see Air

Q: What do you think of Adams? A: Adams strongest points are its teachers (e.g. tennis, soccer), and its AP program. If each of these points were strengthened even more, Adams could very well be the best high school in Indiana. Adams weak points are its newspaper, its nickname as well as its neglected building. All in all, though Adams has strong potential, I'm happy to have spent my freshman and sophomore years here.

Q: What do you think of South Bend?

A:. South Bend is the cultural and social armpit of America. When I

A: Alcohol, a plane trip to enough. Which just goes to show that do not restrain themselves what we expect of ourselves.

> Q: How about the football team? A: We have the most consistent football team in the state of Indiana. And, the mark of a good team is consistency.

Q: What do you think of Scamman?

A: Scamman has presented a great challenge to the South Bend community. How can we learn to wake up at 5:30? Most of us haven't learned to wake up by

Q: What clothes do you like? A: Clothes suit each person individually. A hunchback would not look good whether he wears nice clothes or not. A model looks good regardless of the clothes he wears. The only objection I have to present-day trends in clothing is the buying of clothes which contradict the person.

Q: What are your ambitions? A: To stay out of work as long as possible.

Q: Any last comments?

Letter to the Editor:

Working on the TOWER staff has been both a pleasure and an education for me. Yet, when I think of all the articles and all the lines our editors have cut or modified because of PG rated language or subject matter, I regret having worked for such a hypocritical staff as that of the TOWER. An average teenagers sees movies, reads magazines and books and encounters people

from the "unspeakable" and the "untouchable." The average high school student is experienced enough to know that life involves more than what is traditionally accepted as innocent. The TOWER denies this by refusing to print lines which could damage the "fragile" mind of an impressionable. When the TOWER staff is honest enough to correct its Walt Disneyism and admit that high school students can be mature about the "vices" of life, Adams High School would benefit greatly. Maybe open exposures to such subject matter would allow Adams students to mature even more. And after all, artistic expression can redeem anything.

Ram Neta

Note: The TOWER will forward Ram's censored X rated articles on to his new school and they can decide what to do with

#### Editor's Note:

The TOWER has benefitted greatly from the talents of Ram Neta. He is without doubt a student of enormous abilities and his contributions have been many. I do agree with his views on the overly strict editing policies of the TOWER; however, some of the material presented is in poor taste, inaccurate or badly written so needs editing. It is not always necessary to say something shocking in an effort to make a point. Working with Ram has been an experience and I have truly admired his prolific genius. Good luck, Ram, and may your next editor be a male.

interests, friendliness, TACT, and admitting to one's bad points.

Q: What is the best way to spend

A: With friends, in Chemistry class, or eating Chinese food.

Q: What is the worst way to spend

A: Without friends, in Health class, or eating health food.

Q: What is the best way to spend money?

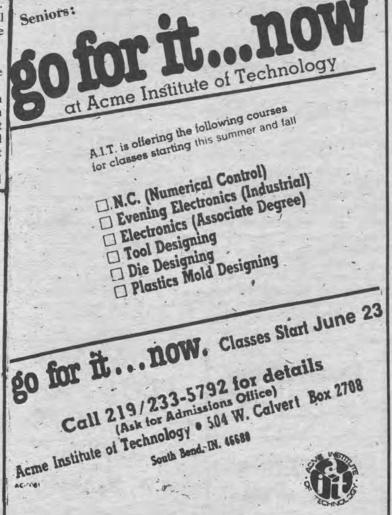

A: Food, a plane trip to Paris, tickets to see Pink Floyd.

Q: What is the biggest waste of

go out with friends, it's really difficult finding a nice place to go. There have been maybe two good concerts in the six years I've been here. There are only a couple of really good restaurants in town. Few good movies are ever here. There is no good professional drama. On the whole I'd rather be in Philadelphia.

Q: What do you think of the Adams basketball team?

A: The Adams basketball team has both tremendous ambition and tremendous potential. At most schools, a 12-8 record would be cause for joviality. But, here at Adams, no! We admit it, we messed up. We didn't do well

**Major League Predictions Continued** 

The Montreal Expos are clearly the class of the NL East. Steve Rogers, Bill Gullickson, Gary Carter, Andre Dawson, Al Oliver, and, yes, Ray Burris should leave the rest of the division far behind. The booming bats of Hernandez and Hendrick as well as Sutter's split-fingered fastball will help the ST. LOUIS CARDINALS to another good season, but they are still a year or two away from being championship caliber. Any team with Schmidt, Rose and Carlton should be pretty good, but the PHILADELPHIA PHL-LIES are aging fast and will not be able to stay in the race very long. The PITTSBURGH PIR-ATES have the right idea. Trading Foli and Garner was an admission that they won't be in the playoffs, but the Bucs get a rebuilding effort in gear at the right time, and won't be a bad team if their pitchers stay healthy. Both the NEW YORK METS and the CHICAGO CUBS have a long way to go. George

Foster and Neil Allen should help the Mets nose out the Cubs, who may be celler-dwellers for the last time in '82.

In the NL West, the LOS ANGELES DODGERS haven't stopped producing star pitchers now that they've got Fernando. This year, Dave Stewart looks like the bullpen stopper the Dodgers need next to Steve Howe. With Steve Sax stepping in at 2B and the pitching as solid as ever, L.A. shouldn't have too much trouble making the playoffs. The HOUSTON ASTROS seem to enjoy living on the brink of disaster, but their pitching always seems to carry them through. With only Jose Cruz and whatever pansies they can find for hitters, the Astros may fall over that brink this year. The CINCINNATI REDS have a tough young pitching staff that is just beginning to come into its own, but the outfield of Hurdle, Cedeno and Householder is a far cry from Foster, Griffey and Collins, and the Reds will probably fall short. The ATLAN-TA BRAVES have been waiting for three years for their pitching to approach the level of the Bob Horner-Dale Murphy led attack. If it does develop this year, the Braves could finally be on the way up. The SAN FRANCISCO GIANTS managed to trade all five starting pitchers away during the off-season, which leaves them with Rich Gale and Punch and Judy to contend with the league's best hitters. The Giants are in for a long season. The SAN DIEGO PADRES should begin to improve this year. They have good young pitchers like Juan Eichelberger, Chris Welsh, and Gary Lucas and a bunch of young talent in the field. The Padres are still about a year or two away from being legitimate playoff contenders.

Barring any unforeseen plane crashes, it should be the Brewers and the Angels in the American League, and the Expos and the Dodgers in the National with the Expos defeating the Brewers in the World Series.

#### **Diamonders Turn Season Around**

by Alan Engel

As of last Sunday, Adams baseball team had won six of their last seven games to stand at 11-7 overall and 7-6 in the NIC. Five of those six wins can be accredited to juniors Alan Nutting (2), Dan "the rocker", Manier (2;, and Dave Skidmore (1). The other goes to senior hurler Dave Henkel. The Eagles had been a little shaky before these wins due to the loss of senior pitchers Henkel and Rich Zielinski because of health problems. They managed to survive this period with the help of the previously mentioned juniors and the relief effort of seniors Pete Stinchcomb and Eric Swartz.

Several Eagle bats have also a path to the Sectional finals.

been rather hot recently. First baseman Dave Izdepski and center fielder Kevin Williams have been in the star's corner the past couple of games with their performances at the plate. But for the entire season, right fielder Scott McMahon and infielder Rick Romeo can't go without mention as they are both hitting well above .300. Both are also going after school records. McMahon, if he stays healthy, will undoubtedly surpass Jeff Coker's RBI record of 30. Romeo is shooting for his own record of 73 times on base in one season. If our pitching staff can remain healthy and these hitters can equal their past performance, Adams at least has

(4-6, 7-5, 6-4) clinched the victory. In the last couple of

weeks the team has also defeated

Laporte (4-3), Riley (7-0), Lasalle

For the third consecutive year the girls' track team has successfully defended their city title. Recording first place finishes for the Eagles were Tessa Billups in the 100 and 200 yard meter relay consisting of Kate Manley, Tessa Billups, Norene Ivy, and Beth Carter also turned in a first place finish. At this point in the season the team's record was unblemished.

Recently, the Eagles participated in the fourth annual Princess Relays. Out of sixteen teams the Eagles finished a respectable third. In the running events, the lone winning relay was that of Denoris Jenkins, Mary Rocha, Beth Carter, and Annette Shaumber in the Shuttle Hurdle relay. Also, Carter and Jenkins combined their efforts to clear 10 feet 7 inches in the high jump relay. The Eagles are looking strong and should place high in the upcoming

# Girls' Softball by Patti Tripathi

The John Adams Girls' Softball Team has gotten off to a good start with seven wins and two losses. Their incredible ability was evident when they beat LaSalle 15-4, Elkhart Central 21-9, and St. Joe 12-6 with Shelly Jablonsky as the leading pitcher.

Chris Allsop, Shelly Jablonski, and Kathy Conolly are tri-captains. Anne Cowen, the designated hitter, has scored the most runs and has also stolen the most bases. Mary right fielder; Kelly McMahon, left fielder; Val Lane, catcher; and Peggy Duesterberg, shortstop are extremely valuable assets to the team. They have maintained high batting averages and RBI's all year long contributing to the success of the team. Jennifer Wiesjahn, third baseman, Chris Allsop, first baseman, and Kathy Conolly, center fielder are other leading starters who have also displayed fine performances. "Talent-wise we are as good as anybody and if we play well, we'll be hard to beat," proudly commented Head Coach Flora. He is also confident that the team will make it to the City Tournament again this year.

## Boys'Soccer

by George Vittori

The John Adams Soccer Team is off to a tremendous start by compiling a 5-0-1 record overall and a 3-0 record in conference play. Their best performance, without a doubt, was against state ranked Ft. Wayne Luers when they totally dominated and won by the score

The play of the offense has been incredible. The top scorer has been forward John Croy, who has 10 goals, and not too far behind him is midfielder Kurt Roemer who has blasted six home. Other scorers have been forward Rick Maldanado with 3, midfielder Andy Revrer with 2, and midfielder and co-captain Steve Collier with 1.

The defense has been exceptional if not perfect. The main reason for this is because of the job Kevin Hughes has done in goal, and by the outstanding performances of Chip Cunningham and Kevin Sweeney at defender.

Even though the city tournament is over 3 weeks away, they must hold on to this high level of play if they are going to fare well.
